## 12<sup>TH</sup> INTERNATIONAL SYMPOSIUM ON RICE FUNCTIONAL GENOMICS

November 16-19, 2014  
Tucson, Arizona.

### Marriott University Park Hotel

The ISRFG will be held in Tucson, Arizona November 16-19, 2014 at the Tucson Marriott University Park Hotel. A group rate has been secured and is available three days prior to and three days post the program dates (based on availability). To access the hotel's registration site:

<https://resweb.passkey.com/go/UARiceConference>

### Registration Fees *Registration fees include:*

- Access to Plenary Lectures, Workshops, exhibits and poster sessions
- 1 Copy of the Final Program & Abstract Book
- Continental Breakfast, morning and afternoon coffee breaks and lunch for Monday, Tuesday and Wednesday;
- Dinner Monday evening;
- Special event at the Arizona Sonora Desert Museum Tuesday afternoon and evening which includes transportation, tour of museum, reception and dinner;
- Opening Welcome Reception (Sunday)

### CANCELLATIONS & SUBSTITUTIONS

All cancellations must be received in writing by the symposium coordinator [gayles@email.arizona.edu](mailto:gayles@email.arizona.edu) by **November 1, 2014** in order to receive a refund. A \$50 processing charge will be applied to all refunds. After November 1, 2014 no refunds will be issued. If you are unable to attend, you can send a substitute in your place. In order to have the registration and the badge switched to your replacement's name, the person replacing you must present a confirmation letter at the registration desk on-site.

### ISRFG

The 12<sup>th</sup> ISRFG is an important meeting in the areas of functional and evolutionary genomics of rice to help find solutions to help solve the 9 – billion people question – i.e. “How can we grow enough food to feed the world by 2050 given the rapid increase in the human population from ~7.3 billion now to over 9 billion by 2050”.

This meeting will also celebrate the 10<sup>th</sup> anniversary of the completion of rice genome sequence by the International Rice Genome Sequencing Project and its impact on plant biology and agriculture. The IRGSP RefSeq still remains to this day as the highest quality genome sequence for any crop plant.

## REGISTRATION FORM

*Please print or type as you would like information to read on your nametag*

***\*ONE FORM IS NEEDED FOR EACH REGISTRANT\****
